Justification of Proposed Language Changes

1. Deletion: "research"

This language is proposed to be removed because funds are not requested in this account for research in support of Everglades restoration.

2. Deletion: "land acquisition for"

This language is proposed to be removed because funds are not requested in this account for land acquisition for Everglades restoration.

3. Deletion: "and"

This language is proposed to be removed for grammatical correctness because the language it is related to would not be the last in a sequence that would include additional earmarks of funds in the proposed language.

4. Addition: "of which not less than \$9,000,000 is for reimbursement of the United States Geological Survey for conduct of National Park Service Natural Resource Challenge activities;"

This language is proposed to earmark funds to pay the U. S. Geological Survey for work using NPS funds requested for the Natural Resource Challenge.

5. Addition: "of which \$22,000,000 is for conservation spending category activities pursuant to 251 (c) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of discretionary spending limits;"

This language is proposed to earmark funds to be regarded as being for conservation spending category activities in accordance with the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

6. Deletion: "of 1985, as amended"

This language is proposed to be removed from a citation of the "Balanced Budget and Emergency Deficit Control Act of 1985, as amended", because a complete citation of this same Act would precede this citation in bill language proposed to be added for this account, making it unnecessary to repeat the citation completely.

7. Deletion: ": *Provided further*, That none of the funds in this or any other Act may be used to fund a new Associate Director position for Partnerships"

This language is proposed to be deleted as unnecessary.

8. Deletion: The entire language in the Emergency Supplemental Act, 2002.

This language is no longer needed because the funding provided has served its purpose and is not requested again.

2. (including special road maintenance service to trucking permittees on a reimbursable basis),

No specific authority. This provision was inserted into the appropriation language in the FY 1954 budget. It stemmed from an emergency need that developed during 1952 at Big Bend National Park, Texas. The road system at Big Bend became a transit for the heavy trucking of ore for defense purposes between Boquillas, Mexico, and the nearest railroad at Marathon, Texas. The weight, size, and capacity of the trucks being used were far beyond that for which the park road system was designed. As a result, the additional cost for maintenance and repair was far in excess of available road maintenance funds. To

meet this emergency, the Defense Materials Procurement Agency made available the sum of \$100,000 to rehabilitate and strengthen the road, with the understanding that the National Park Service would subsequently maintain all sections of it, such maintenance to be financed by reimbursement from the trucking permittees at a rate of 2 cents per mile.

16 U.S.C. 1, which creates the National Park Service, authorizes this provision, which is included because of the desire of Congress to collect the agency's general administrative expenses in one appropriation.

6. of which not less than \$_____ is for reimbursement of the United States Geological Survey for conduct of National Park Service Natural Resource Challenge activities;

16 U.S.C. 1 requires the National Park Service "to conserve the scenery and the natural ... objects and the wildlife therein ... in such manner and by such means as will leave them unimpaired for the enjoyment of future generations", which would authorize activities to protect natural resources in park areas.

7. of which \$_____ is for conservation spending category activities pursuant to 251 (c) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, for the purposes of discretionary spending limits;

2 U.S.C. 901(c), Section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, provides discretionary spending limits by fiscal year for the conservation spending category and for each of its sub-categories.

Service may be used, with the approval of the Secretary, to maintain law and order in emergency and other unforeseen law enforcement situations”

16 U.S.C. 1a-6, Section 10 of the National Park System General Authorities Act, as amended, authorizes the law enforcement activities of the United States Park Police.

10. those funds needed to maintain and repair United States Park Police administrative facilities,

16 U.S.C. 1, which creates the National Park Service, includes implied authority to maintain and repair its administrative facilities.

11. and those funds necessary to reimburse the United States Park Police account for the unbudgeted overtime and travel costs associated with special events for an amount not to exceed \$10,000 per event subject to the review and concurrence of the Washington headquarters office.

16 U.S.C. 1a-6 authorizes the law enforcement activities of the U. S. Park Police. The proposed language would make it easier to provide the funding needed for unforeseen events requiring the use of the U.S. Park Police.
